

Tell me about keyboard shortcuts in Quicken

Many shortcuts require that you press two keys. For example, "CTRL+A" means hold down the CTRL key and press the letter A.

- You have the option to select either [Windows or Quicken keyboard scheme](#) for CTRL + Z/X/C/V.
- Shortcuts do not work in browser-based Quicken features.
- If you wish to compare the keyboard shortcut keys in Quicken with the keys in Windows, [here is the link](#).
