

Enabling Add-On Payments

Not Available in Canada

This service is unavailable for users of our Canadian products.

The first time you reach your Quicken Bill Manager payment limit, you are prompted to **Enable Automatic Add-On Payments**.

When you enable **Automatic Add-On Payments**, Quicken will automatically add additional **Quick Pay** and **Check Pay** payments when needed.

This is not a recurring monthly fee. You will not be charged for **Add-On Payments** unless you send a payment after using up your available payments.
