

See my income and expenses as a graph (business)

The Business tab includes several graphs that summarize your business income and expenses:

- The **Expense** graphs display the top business expense categories.
- The **Income vs. Expenses** graph shows total expenses by category compared to the total income by category over time. Quicken displays the top five values.

Creating the graph

Click the **Business** tab.

1. If necessary, click the **Profit/Loss** button.
2. If you have more than one business, make sure the business you want to look at is selected in the drop-down list above the In/Out/Profit/Loss snapshot.
3. Below the **In/Out/Profit/Loss** snapshot, click the tab for the graph you want to see.

Can I see an expanded graph?

Yes. Click the button below the snapshot to show the graph.

Can I see the same data as a report?

Yes. Click the button below the snapshot to show the report.
