Using the Navigation Bar

Navigation Button	Description
Dashboard	Go to the **Dashboard** page. The **Dashboard** displays items such as **Recent Transactions**, **Top Spending Categories**, **Top Payees**, and **Spending Over Time**.
Transactions	Go to a list of your transactions. This list is also called the **Register**. Use this to review and edit your transactions.
Reports	View reports about your **Spending**, **Net Income**, and **Income vs Expense**.
Budgets	Go to the **Budget** page, where you can decide how much you should spend in each spending category. If you have not created a budget, you will be prompted to create one.
Income	Go to the **Income** page, where you can view your **Net Income by Month**, as well as your **Income vs. Spending**.
Bills and Income	Go to a page listing all the upcoming bills and income that you are currently tracking.
Investments	If you are tracking investments, you can view an update on those investments here.
	Toggles **QCards**, which will help guide you through many parts of **Quicken for the Web**.
Help	Allows you to choose between viewing help for **Quicken for the Web**, or contacting support.
Settings	Allows you to adjust your settings for your **Profile**, **Account**, and **Categories & Tags**.
Profile	Your profile has a list of your most recently accessed datafiles. You can also select **My Account** to view your Quicken account details such as your email address and subscription renewal information.
