

About my expected profit or loss for a future month (In/Out /Profit/Loss)

Expected profit or loss is the amount you're scheduled to make or spend this month. Quicken determines this amount from the value of all the business transactions you track in any Quicken account, and subtracts your scheduled business payments and expenses for the month from your scheduled business income and deposits for the month.

This feature requires **Quicken Business & Personal**. Learn how you can [upgrade Quicken](#) in minutes.
