

Customize your calendar view

Quicken gives you the flexibility to customize to display only the account information you want.

To customize your calendar, click the **Settings** icon on the top right of the calendar report. You have the option to:

- Hide or show transactions and cash balances in your calendar
- Select the accounts to be included in the calendar
- Customize your calendar for a specific account or an account type and [save it as a custom calendar](#)
- You can choose to monitor only the cash balances in your accounts by turning off your transactions.
- Alternatively, you can choose to monitor only your transactions by turning off your balances.
